PROFESSIONAL SUMMARY

Data Engineer with a strong business-oriented mindset, experienced in designing and implementing data integration, processing, and analytics solutions that drive decision-making.

Specialized in SQL and data architecture, with hands-on experience integrating multiple data sources (MySQL, SQL Server, PostgreSQL) into analytical environments like BigQuery. Focused on ensuring data quality, reliability, and accessibility.

I bring value by building robust data pipelines, automating critical processes, and transforming raw data into actionable insights that impact business performance.

PROFESSIONAL EXPERIENCE

Data Integrity Analyst, Hinweiss **Oct 2023 - Presente**

- Designed and implemented data **architectures integrating multiple data sources** into unified models.
- **Built automated data pipelines ETL/ELT** ensuring real-time updates and data consistency.
- **Developed business-critical dashboards for KPIs based on OKRs** to support commercial and financial decision-making.
- **Collaborated directly with stakeholders** to translate business needs into scalable data solutions.

AutoWeb Analyst, Asignet Technology DNA **Mar 2022 - Oct 2023**

- **Automated key operational processes**, reducing manual errors and increasing efficiency.
- **Developed solutions for automated billing data processing** with immediate data availability.
- Improved onboarding processes through **technical documentation and training materials**, reducing ramp-up time by 50%.

EDUCATION

Bachelor's Degree in Information Technology **Mar 2023 - Apr 2026**

Universidad ORT

- Final Project: "Computer Vision System for Container Seals Recognition"

SKILLS

- **Data & BI:** Advanced SQL, BigQuery, PostgreSQL, SQL Server, MySQL
- **Data Engineering:** ETL/ELT, data integration, data modeling
- **Programming:** Python, Java, C#
- **Cloud:** AWS (basic/intermediate)
- **Visualization:** Dashboard development & reporting
- **Tools:** Git, Github, Trello, ClickUp
